

Figure S12 Prototype survival during multi-stage screening

PCL recommendation **Post-screened candidates** **Commercially available**

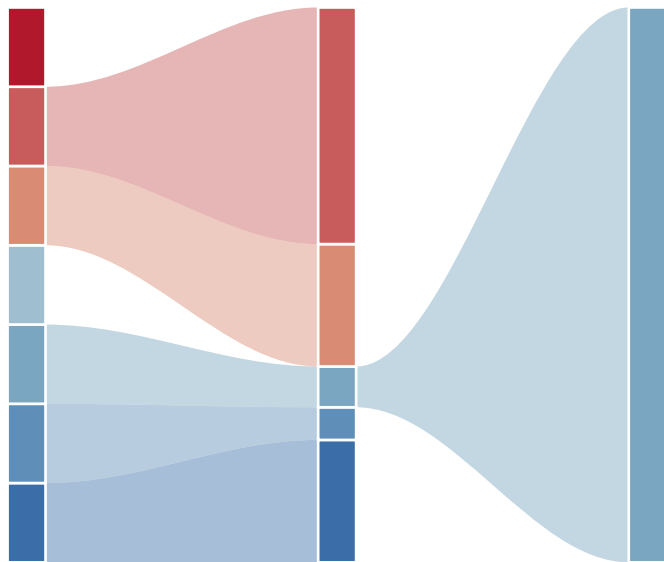

N = 30,800

N = 68

N = 4

Stage 1: 30,800 recommended molecules (4,400 per prototype).
 Stage 2: automatically counted from Excel (current file total = 68).
 Stage 3: manually set to 4 purchasable molecules, all assigned to P3.

Composition by stage
